

Fisherbrand[®]
QUALITY. RELIABILITY. VALUE.

Focus on pH

pH-Fix non-bleeding test strips

Focus on pH

Just dip ... and read!
Rapid and reliable pH testing

**Fisher
Scientific**

A Thermo Fisher Scientific Brand

- 85mm x 6mm sticks with different indicator papers sealed onto each test strip
- Provides outstanding measurements safely over the designated pH range
- Colour scale on the test strip box allows exact comparison with the colour developing on the test strip pad
- Indicator is covalently bonded on the pads and does not bleed into the sample – can be left in sample for an indefinite time without contamination
- Hydrophobic plastic handle protects user from sample and allows pH testing in narrow and deep vessels
- Available in a flat box so they fit into every pocket
- An economic and easy standard in a variety of environments such as:
 - Chemical laboratories
 - Industry
 - Dairies
 - Production
 - Universities
 - Schools
 - Food processing

Specifications

Shelf life: four years after production · Storage: 4-30°C
